Professional Summary

Full-stack web developer proficient in React.js, Node.js, Express, and PostgreSQL with strong knowledge of modern frontend and backend technologies and Version Control. Experienced in building responsive design, scalable architectures, and user-friendly applications with real-time communication and secure authentication & authorization. Passionate about creating efficient solutions that combine performance, design consistency, and seamless user experience.

Freelance Experience

Golden Eagle Realtor Website- (React.js, Tailwind) Freelance

May 2024 (Remote)

Developed and delivered a project using React.js and Tailwind CSS, ensuring a seamless and responsive user interface. Implemented a well-structured UI with optimized component architecture for better performance and scalability. Ensured a smooth user experience by focusing on design consistency, accessibility, and responsiveness.

Projects

[\[LINK\]](#) Let's Chat – Real Time Messaging Application

Nov 2024

Tech Stack :- Node.js, express, react.js, web Sockets, JWT, PostgreSQL.

- Developed responsive, intuitive, and interactive user interfaces using React.js to enhance user experience
- Built and maintained scalable backend systems with Node.js and Express, enabling seamless Rest API communication and efficient database handling
- Database Management: used PostgreSQL to use and store data effectively
- Implemented Web Sockets for seamless real-time bidirectional communication, ensuring message delivery within ~1–3 seconds
- User Authentication: Implemented using JWT and bcrypt.js for password encoding
- Used multer for transferring and cloudinary for storing and managing profile photos more efficiently

[\[LINK\]](#) Hotelier– Database System for managing hotel

May 2025

Tech Stack :- Node.js, express, react.js, JWT, framer-motion, recharts, postgres, redux

- Developed responsive front-end interfaces using React.js, Tailwind CSS, and Framer Motion to deliver smooth animations and an engaging user experience
- Used Node mailer to send mail to the user on successful login and failed attempts
- State Management: used react-redux for managing states and updates all over the project
- Data Visualization: Real-time Data Visualization in graphs is implemented using recharts.js

[\[LINK\]](#) GitStructure- Ai Based Git Structure viewer

Sept 2025

Tech Stack :- react.js, , framer-motion, mermaid

- Developed responsive front-end interfaces using React.js, Tailwind CSS, and Framer Motion to deliver smooth animations and an engaging user experience
- Integrated Gemini API to provide brief summary of the github project.
- Structure diagram is drawn using mermaid tool in react.

Skills

- **Frontend:** React.js, React-native, Redux, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Framer Motion
- **Backend:** Node.js, Express.js, REST APIs, Web Sockets, Authentication (JWT, OAuth)
- **Databases:** PostgreSQL, MySQL (Query Optimization)
- **Developer Tools:** Git, GitHub, Postman, Vercel, Railway, VS Code.
- **Other:** Object-Oriented Programming (OOP), Data Structures & Algorithms, Operating Systems, DBMS

Education

- MCA (Software Engineering), USICT, Guru Gobind Singh Indraprastha University, Delhi | **Expected 2027**
- B.Sc. (Computer Science), B.S.A. College, Mathura | **2025** | 8.11 CGPA
- 12th, Sacred Heart Convent, Hr, Sec, School, Mathura | **2022** | 92%
